

AMT178 Water Activity Meter

Features:

1. This is a real portable water activity meter, with a light weight, and a precision of 0.02aw, easy to measure water activity anytime and anywhere.
2. Sensors and readings are integrated.
3. Fast test, measurement of water activity.
4. Easy reading, water activity and temperature of the samples displayed together.
5. °C/°F changerable.
6. Auto off after 1 minutes without any operation.

Specifications:

1. Range: 0.000~1.000aw
2. Resolution: ± 0.001 aw
3. Accuracy: ± 0.02 aw
4. Sensor: Non conductive humidity sensor
5. Sampling Time: 5 Minutes
6. Operation Conditions: Temperature: 0~50°C; Humidity: <95%RH
7. Power Supply: 2x1.5V AAA Size (UM-4) Battery
8. Dimensions: 140x73x65mm
10. Weight: (Not Including Batteries): 330g
