

RF HOME AND GARDEN LINE

PRODUCT ADVANTAGES

Ease of Use

**Universal
Compatibility**

Safe, Hassle free

Unique Designs

PRODUCT ADVANTAGES

Ease of Use : Pairing & working distance

Code pairing

- One single press on the receiver's button, and a similar press on a remote key allows to pair the devices together to ensure a perfect data transmission.
- Each receiver has the possibility to be paired with 4 different remote controls, or with 4 different channels from a same remote.

Working distance

- To make sure products will always work in any condition, RF technology has been pushed to its limits in terms of working range for a hassle free use.
- All products in the RF Home range reach 100m working distance in a open area (less indoor due to walls)

PRODUCT ADVANTAGES

Universal Compatibility

A worldwide Exclusivity

- All receivers also have the ability to learn 2 sets of On-Off signals in 434Mhz from **any remote** in the same frequency (except skipping codes remote)
-➔ END-USERS can add products to their existing line, and be sure it will work with their previously purchased products already used at home
-➔ SHOPS are not bothered by change of product ranges, and impossible to sell stock of non compatible items
-➔ SHOPS are not forced to work with a full line of accessories from 1 supplier only.

Technical Patents #12496236 and #0952167 pending for Europe and USA

PRODUCT ADVANTAGES

Safe, Hassle free designs

- All our products are equipped with an **electronic detecting overpower problems** .
Once problem detected, our products will:

- **Automatically cut down power to avoid any damage**
 - Receiver LED will flash to inform end user of problem
 - Built-in Buzzer will beep few minutes to inform end-user
 - Once problem solved (device disconnected), our receiver will restart automatically

.....➡ Really hassle free to end-users, if for those having no knowledge whatsoever of electronics.

.....➡ Shops and importers do not have to handle defective products due to end-user misunderstanding of electrical ins and outs. Big savings, and less end-user unhappy about the product..

PRODUCT ADVANTAGES

Unique Designs

-Every products in the range has been designed to bring a PLUS compared to existing competitive products.

- PLUS can be in terms of :

- Cosmetic
- Dimension
- Mechanical structure
- Safety
- Function

RF GARDERN

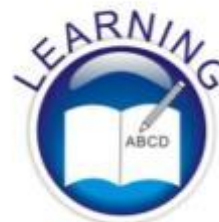

Ref No. : HRF-G3000

- 3000 Watts
- IP44
- 4 memory pairing + 2 codes learning
- Protection against wrong use and overload
- On-Off button on device
- 2 color LEDs
- Available French, German, Italian, US pins

PRODUCT +++

- Rain resistant
- Available with 50cm or 300cm cable.
- Auto switch off in case of overpower detection

RF PLUG

Ref No. : HRF-P3000F (3000W)

- 4 memory pairing + 2 codes learning
- Protection against wrong use and overload
- On-Off button on device
- 2 color LEDs
- Available French, German, Italian, US pins

PRODUCT +++

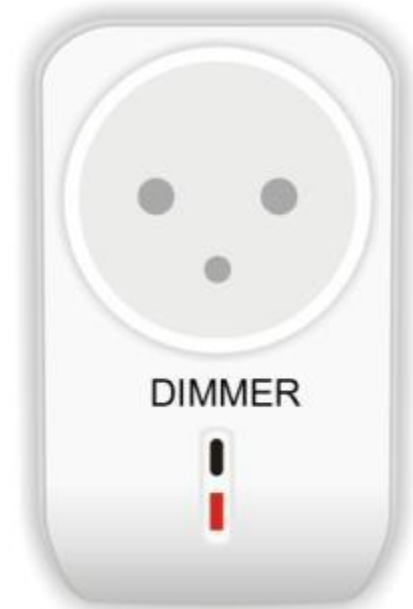

- Smallest product on market
- Glossy top with curved shape for nice design
- Universal
- Safe

RF PLUG WITH DIMMER

Ref No. : HRF-P300F

- 40-300 Watts
- 4 memory pairing + 2 code learning
- Protection against wrong use and overload
- On-Off button on device
- 2 color LEDs
- Available French, German, Italian, US pins

PRODUCT +++

- Never burn: if wrongly used by end-user, switch of power automatically, and indicate problem by flashing LED
- Once caused of problem solved, replug, and it shall restart automatically
- Smallest on the market

RF SOCKETS FOR BULBS

Ref No. : HRF-BS01 (E27)
Ref No.: HRF-BS02 (B22)
Ref No.: HRF-BS03 (E14)

- 450Watts for E27/B22 bulbs
- 150Watts for E14 bulbs
- Dimmer function built-in
- 4 memory pairing + 2 code learning
- 3 color LEDs
- 1 button of easy access on the edge

PRODUCT +++

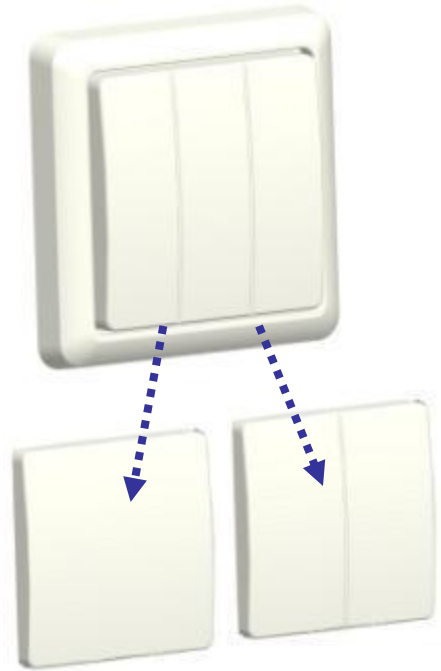

- 50% smallest than any other similar products
- 3 products in the range
- Cosmestic design

RF WALL SWITCH REMOTE

Ref No. HRF-RC05

- Wall Switch design
- Can control 1, 2 or 3 different devices
- Easy to mount with screws / double side tape

PRODUCT +++

- Includes top cover for 1 or 2 or 3 buttons:
 - > customers can adjust it depending on their use
 - > shops do not need to carry several ref. in stock

RF 4 CODES REMOTE

Ref No. HRF-RC06

- 3 sets of keys
- 3 sets of On-Off
- 1 set for General On-Off
- 12V included battery can last years
