

# 80mm Bluetooth Thermal Portable Receipt Printer

Caysn®

## Main Features

- Paper easy-loading structure, convenient in using
- Equipped with belt buckle and hang belt
- Large battery capacity, 2000mAh; battery indicator prompt
- Two color optional, bright orange and light blue
- Support big paper roll, Max 60mm
- Support thermal receipt paper printing
- Support Micro USB+Bluetooth communication, WiFi optional

## Technical Parameters

| Product             | P80D (Bluetooth or WiFi)                                                                                        |
|---------------------|-----------------------------------------------------------------------------------------------------------------|
| Printing method     | Thermal printing                                                                                                |
| Resolution          | 203DPI, 8 dots/mm                                                                                               |
| Printing width      | 72mm(576 dots)                                                                                                  |
| Printing speed      | 80mm/s                                                                                                          |
| Interfaces          | Wired: Micro-USB port; Wireless: Bluetooth; Optional: WiFi                                                      |
| Command set         | ESC/POS compatible commands                                                                                     |
| Graphics printing   | Support dots printing with different densities, Support raster bitmap print, Support downloaded bit image print |
| Code pages          | Support simplified & traditional Chinese, English, Japanese and other 45 kinds of international character sets  |
| UTF-8               | Support                                                                                                         |
| Bar codes           | UPC-A; UPC-E; EAN-8; EAN13; CODE39; ITF; CODEBAR; CODE128; CODE93; QR CODE                                      |
| Paper type          | Thermal receipt paper                                                                                           |
| Paper thickness     | 0.056~0.1mm (Receipt paper)                                                                                     |
| Paper width         | 79.5±0.5mm                                                                                                      |
| Paper roll diameter | 60mm (Max)                                                                                                      |
| Paper tore          | Manual                                                                                                          |
| Printer dimension   | 145mm*110mm*75mm (L×W×H)                                                                                        |
| Weight              | 500g (Printer & Battery)                                                                                        |
| TPH life            | 50km                                                                                                            |
| Battery             | Rechargeable Li-ion Battery, 7.4V, 2000mAh                                                                      |
| Power Supply        | 5VDC/1A                                                                                                         |
