

Custom Precision Punch Stamping Single Flat Steel J / S Shape Hook	
Material	Non-ferrous alloy material like carbon steel,stainless steel,galvanized steel,aluminum,copper,brass,etc
Surface Finish	All kinds of surface treatment are available like chrome plating,zinc plating,nick plating,powder coating,e-coating,dip coating,mirror polishing,etc.
Application	Electronic/Appliance/Auto/Industrial equipment metal stamping hardware parts
Processing	Our process includes tooling fabrication,stampng,deep drawing,punching, spinning,laser cutting,bending,seamless welding,machining and assembly
Available Certificate	ISO 9001,SGS,Material Certificate
Accident Prevention	Safety Operation Management
Quality Control	Liability System and Periodical QC on line every hour
Main Market	USA/Germany/Canada/Italy/United Kingdom/Australia/Pakistan/French,etc

Product Name	Customized High Quality Stamping Polishing 304 Stainless Steel Wall J Hook with Screw
Product Use	wall hook
Product Material	carbon structural steel
Product Size	Long side length :133mm, short side length :53mm, width :35mm, thickness :3mm, long side has two hanging holes, hole diameter :6mm, product weight :0.14kg, material is Q235, black plastic spray surface treatment
Product Process	stamping
Product Finshing	polishing
Product Color	natural
Product Service	OEM
Product Package	export shipping carton
