

Product name: USB Switcher (USB 3.0)

Model: HA-413

1. Product Picture

2. Package Contents

- 1 x USB 3.0 Switch
- 2 x USB-A to A 3.0 Cable
- 1 x USB-A to C power cable
- 1 x User Manual

3. Product Description

This aluminum USB 3.0 switch supports sharing 4 USB 3.0 peripheral devices between 2 computers, such as a mouse, keyboard, printer, scanner, card reader, flash drives, and more. It frees you from constantly plugging and unplugging USB cables, improving productivity and saving space.

4. Connect and Operate

- Plug the device you want to connect into the USB port on the 4-port side, and plug the device you want to switch, such as a computer, into the USB port on the 2-port side.
- Press the button on the switcher, and the connected device will switch between the 2 hosts.
- When the power supply of the USB port is insufficient, please connect a standard 5V adapter.

5. Features

- The USB 3.0 switch has 2 inputs and 4 outputs, and 2 computers share 4 USB3.0 peripherals, such as: printers, mice, keyboards, card readers and other USB devices.
- No need to swap cables or set up complicated network sharing software. You only need a set of keyboard and mouse to connect our USB3.0 switch and connect the operating computer between the two switches.
- Compatible with Windows /Vista/XP and mac os, linux and chrome os systems, support hot swap.

6. Specifications

- Aluminum alloy shell
- Input/Output: USB to USB
- Switch: Button switch
- Input: TYPE-C 5V power supply (positive and negative insertion is more stable and convenient than MICRO)
- Support USB3.0 data transfer rate (5Gbps), backward compatible with 1.0/1.1
