

PC747D 直驱超高速包缝机

Direct drive super high-speed overlock sewing machine

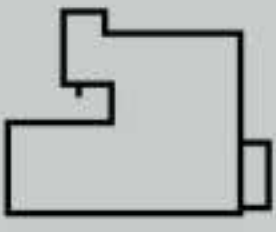

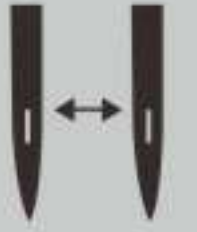

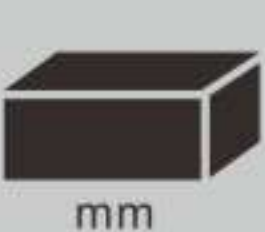

直驱伺服马达
Direct drive servo motor

用途：
适用于各种针织布、梭织布、男女服装、工作服等包边、包缝的缝制。

Application:
Applicable to all kinds of knitted fabrics, woven fabrics, men and women clothing, uniforms, such as wrapping, overlock sewing.

特点：
由于采用自动润滑装置运转，顺畅自如。缝纫张力低，在高速下也能缝出稳定漂亮的线迹。

Features:
As a result of automatic lubrication device operation, smooth and comfortable. Sewing tension is low, at high speed can also sew a stable stitch.
