

EU Smart WIFI Waterproof Socket TM-WP-12

Product Parameters:

Waterproof level:IP66

Weight:345g

Voltage range: AC 100V-240V 50/60HZ

Max current: Max 16A

Wireless frequency:2.412-2.484GHz

Wireless IEEE standards:IEEE802.11b/g/n

Security type:WEP61/WEP/128/TKIP/CCMP(AES)

Security mechanism:WEP/WPA-PSK/WPA2-PSK

Wireless consuming:≤0.3W

Working condition:-20℃-60℃ (-4°F-140°F)

Store humidity:RH10%-RH80%

Certification: CE, ROHS Certification

Product overview:

WIFI smart waterproof socket connects to the Internet through WIFI network and controls the power of home appliances,smart phone or other device can control the switch of waterproof socket and track the status of socket at any place where network is available,one device can support more than one WIFI smart socket controller.WiFi smart socket using Smart Link net technology you can easily access settings,besides,it has timing function you can DIY for your favorite and power indicator for your energy tracking,let you have fun on local or remote control your home appliances,enjoy with it.

Product Features:

- 1.IP66 waterproof, safely use in the bathroom or outdoor.
- 2.Smart WiFi connection, easy to access settings, no need to purchase another host.
- 3.Can control and monitor devices from anywhere with Smart Life APP.
- 4.Works with Amazon Alexa and Google Home (not included), control normal household appliances with your voice.
- 5.Supports 8 timer tasks and 150 WiFi devices, schedule your appliances, automatically turn household appliances on and off as you need.
- 6.Easy installation, easy handling, stable and fast activation.
- 7.Durable and safe ABS material.
