Your Success Is Our Mission. Let's Grow Together!

About CYSPO

CYSPO is a professional manufacturer of wireless charger, Founded in 2013 ,we have been focusing on wireless charger production for the past decade, CYSPO is also a leader and pioneer in this industry. We have outstanding reputation due to our strong emphasis on quality control, which includes overseeing all key materials used in our wireless chargers. This is why we have our own PCBA factory and have also invested in key material suppliers over the past decade. These measures help us maintain better quality control and make it easier for our customers to do business with us.

For CYSPO products, we focus on originality and 90% of our models are private designs. We target the high-end market and have a strong R&D team. We launch 5-10 new private models every year.

CYSPO is a vibrant and fast-growing high-tech enterprise. The CYSPO factory has ISO9001, BSCI, and Sedex certifications and also meets global recycling standards. For CYSPO products, we have Qi2 wireless certification, CE, ROHS, FCC, KC, and MFi licenses. CYSPO looks forward to long-term cooperation with you in the future.
