

**QUOTATION SHEET**

PRODUCT DESCRIPTION				PHOTOS & IMAGES		
Product Name	Hydrogen Rich Reverse Osmosis Purifier					
Item Number	OLS-W19					
Unique Selling Point						
1. Postmodern light luxury high-end atmospheric appearance 2. SPE electrolysis technology to produce hydrogen-rich water 3. Aerospace Science and Technology Reverse Osmosis Purification Technology 4. The third generation of rare earth 3 seconds rapid heating technology, multi-stage water temperature 5. Semiconductor refrigeration technology, good taste as low as 10 degrees cold water 6. Built-in LED UVC sterilization, visual indication 7. 200G large flux membrane + built-in large water tank, quick replenishment for continuous use by multiple people 8. Real waste separation water tank, no waste water circulation 9. Smart reminder, smart IOT, enjoy smart life 10. PAC+RO+CF Composite filters						
PRODUCT TECHNICAL DETAILS				Price& PACKING DETAIL		
water tank	6L+2.5L+3L	Working pressure	0.4-0.8Mpa	Products Size	47.5*24*43cm	
Water heating capacity	18L/H(≥90℃)	Water production flow	30L/H	Outer Box Size	55.7*36.7*57.5cm	
Hydrogen Concentration	≥800ppb~2200ppb			Weight	12.3KG	
Filter	1. PAC composite filter 2. 200G RO membrane 3. Alkaline Strontium-rich Composite Carbon			Packing	1pc/color box, 1pcs/ctn	
Working Temperate	5~38℃			40HQ	604PCS	
Material	100% eco-friendly New ABS, Painting+UV			FOB Price	≥50pcs	US\$256.00
TRADE TERMS					≥300pcs	US\$213.00
OEM MOQ	300PCS	Lead Time	30-40 days after deposit		≥1000pcs	US\$205.00
Payment Term	T/T 30%-70%			SAMPLE. Price		US\$259.00
Delivery Place	GuangZhou
