

01 **KEY SELLING POINT 1**
Ultralight weight only 58g

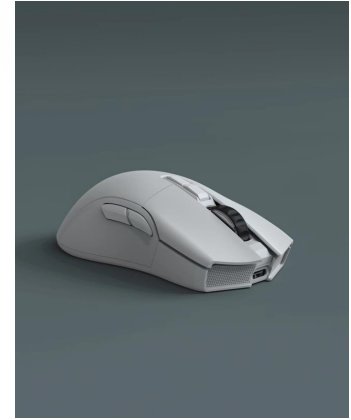

02 **KEY SELLING POINT**
Triple mode: wired/wireless/Bluetooth

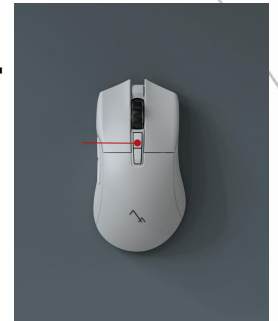

05 **KEY SELLING POINT 5**
Under wireless/Bluetooth, it is Low power consumption, low latency

03 **KEY SELLING POINT 3**
Kailh switch 80M

04 **KEY SELLING POINT 4**
Higher DPI 26000

06 **KEY SELLING POINT 6**
For the Forward and back button which can also use under Mac system, but other mouse can't support

FEATURES

MAIN FEATURES OF THE PRODUCT

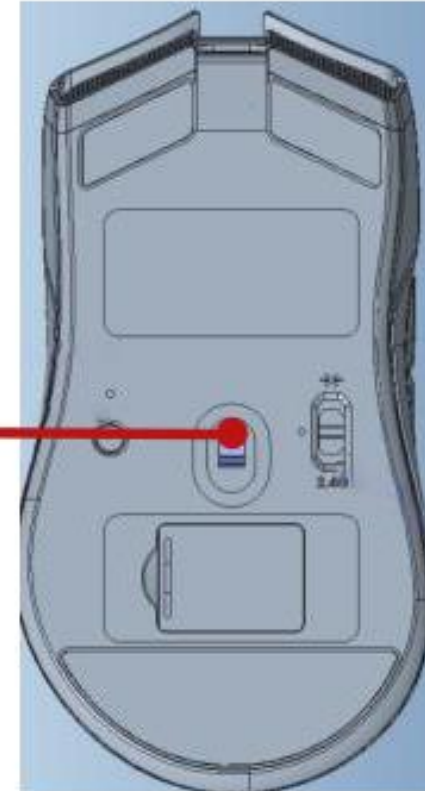

FEATURE NUMBER 1

Size	120*66.20*40.04mm
number of keys	8KEY
color	black
weight	Net weight 61±5g, receiver 1.6G
shell material	ABS
apron	Black Rubber
foot stickers	Teflon PTFE (Black)

FEATURE NUMBER 2

Main control IC	Three-mode Telink Micro Telink solution, 2.4G/Bluetooth 5.0/Wired
wire	Type-C Data Cable Five-core Braided Flash Rope Cable with Magnetic Ring
Wire length	Total wire length: 2M±1%
interface	Gold-plated USB2.0 Type-C interface
Operating temperature	-10°C—50°C
Working humidity	10-90%RH
Operating Voltage	USB wired: DC5V±5% Wireless: DC3.7V
Working current	USB wired: <50MA Wireless: light is always on <15MA, no light <6MA

FEATURE NUMBER 3

Left and right switch operation force	Kailh 70±5gf
Left and right switch life	80 million times
Middle key switch operation force	Universal Huano 65±10gf
Middle key switch life	5 million times
DPI key switch operation strength	Kailh 60±10gf
DPI key switch life	3 million times
Side key switch operation force	Kailh 60±10gf
Side key switch life	3 million times
3D key operation force	100±20gf (vertical force at the center of mouse button)
Encoder	F-SWITCH
Encoder life	1 million laps

FEATURE NUMBER 4

Photoelectric IC	infrared light
highest resolution	The position of the scroll wheel stays on for three seconds and goes out
DPI factory default	PAW3395
USB return	26000DPI (driver can be set)
SPI sampling time	5-segment DPI adjustment: 400 red, 800 blue (default), 1600 green, 3200 purple, 4800 yellow
FPS image processing	The bottom button is adjustable: long on for 3 seconds and off, red light 125HZ, blue light 500HZ (default), green light 1000HZ
Maximum speed	Bottom button adjustable: 8ms/2ms (default)/1ms
acceleration	26000fps
drive	650ips
Wireless transmission distance	50g

FEATURE NUMBER 5

Operating Voltage	USB wired: DC5V±5% Wireless: DC3.7V
Working current	USB wired: <50MA Wireless: light is always on <15MA, no light <6MA
Lithium battery capacity	200MA interval use (about 40 hours in office mode for 8 hours a day, about 20 hours in game mode)
operating system	30 hours of continuous use

Características

FEATURE NUMBER 6

bottom sensor light	Wired and 2.4G mode: WinXP/Win7/Win8/Win10/Win11/Macos
DPI indicator	Bluetooth Mode: Win8/Win10/Win11/Macos

The forwarder and back button also use under Mac system, but other mouse can't support

Comparative with competitors (other brands)

BRAND	Motospeed mouse
SPEC 1	Ultralight only 58 g
SPEC 2	Right and left switch 80M
SPEC 3	Triple mode wired/wireless/bluetooth
SPEC 4	Low power consumption, low latency
SPEC 5	Higer DPI:26000 PWM3395 Sensor
SPEC 6	The forward and back button can use under Mac system

Additional information

PACKAGING

Package Width	60.5cm
long package	39.7cm
high package	40.9cm
product width	12cm
product length	6.6cm
high product	4cm
Package and product weight	60pcs per caton, total weight is 20kg per carton
