VII. After-sales Policy

● Warranty Period

The warranty period is one year from the date the product arrives at the destination port. During the warranty period, if the small parts are defective, they can be replaced by express delivery. If the complete unit has to be returned for maintenance, the freight is to be covered by the sending side.

● Extended Warranty

Extended warranty pricing is calculated as a percentage of the EXW unit price.

2-year warranty: add 8% of the EXW price

E.g. EXW = USD\$1000/PCS → 2-year warranty = USD\$1000 + USD\$80 = USD\$1080

3-year warranty: add 15% of the EXW price

E.g. EXW = USD\$1000/PCS → 3-year warranty = USD\$1000 + USD\$150 = USD\$1150

4-year warranty: add 21% of the EXW price

E.g. EXW = USD\$1000/PCS → 4-year warranty = USD\$1000 + USD\$210 = USD\$1210

5-year warranty: add 26% of the EXW price

E.g. EXW = USD\$1000/PCS → 5-year warranty = USD\$1000 + USD\$260 = USD\$1260

During the warranty period, both parties shall bear his one-way freight.
