

Folding drone

Product parameter

Please read it carefully before buying

Product name

Aerial drone

Graph signal

5G fast transmission signal

Developed size

28.5 x28.5 x8.5 cm

Folding size

10 x16.7 by 8.5 cm

Camera parameter

Electrically adjusted lens

Flight assistance

360° intelligent avoidance

Battery capacity

7.4V 3000mAh

Endurance time

About 25 minutes

Dynamic system

Brushless machine

Positioning system

Optical flow /GPS positioning

Flight distance

About 3000 meters

Flight altitude

300 m

Product function

Intelligent obstacle avoidance, body folding, electrically adjustable lens, dual camera switching, brushless motor One key take off, one key land, fixed height hover, optical flow set height, WiFi connection, APP control, gesture photography, gesture video, GPS one-click return, GPS follow, Trajectory flight, fixed point circling, speed adjustment, MV picture and video sharing
