

BX616 Multi Gas Detector

Specifications:

1. Gas sampling method: natural diffusion
2. Gas sensor type: catalytic (for combustible gas) and electrochemical (for H₂S, CO and O₂)
3. Detecting gas: combustible gas, H₂S, CO, O₂
4. Accuracy: $\leq \pm 5\%FS$
5. Response time: $\leq 30s$
6. Indication: LCD displays real-time and system status, LED, audio and vibration alert for gas leakage, fault and low voltage
7. Working environment: -20 to 50°C, 95% RH no dew
8. Power source: 3.6V DC Rechargeable Li-ion battery, 1,800Ah
9. Charging time: $\leq 6h$
10. Working time: $\geq 8h$ continuously (without alarming)
11. Gas sensor life: 2 years
12. Explosion-proof grade: ExiaIICT4
13. Protection grade: IP65
14. Weight: 200g (with battery)
15. Dimensions: 116 x 66 x 30mm

QINGDAO TLEAD INTERNATIONAL COMPANY LTD. established in 2004 is a professional importer and exporter, engaged in research, development, sales and service of pH meters, thermometers, moisture meters, steel ball, counter meter, tds meter, cable test meters, machine tools, we have more than 15 years experience, can serve new customers for transport, documents as required.

We are located in Qingdao, with convenient transport access, a famous port in China. We have warehouses in the United States, if needed, we could ship your goods from our stock. We can send orders by sea shipment, air shipment, courier shipment. Most models we have in stock and can send it fast with reasonable price.

Our products have exported more than 120 countries and areas, such as Europe, America, Australia, Thailand, Indonesia, Brasil, Chile, Korea, Mexico, Russia. We also welcome OEM and ODM orders.
