

95% of our buyers come back for more

16,000sqm factory | 3 to 5 new models monthly | Up to 560,000m daily

Marketing Under Solitone Brand

Shenzhen Leo Network Technology has 14 years of experience in supplying network communication products for various applications such as copper network cabling, fiber-optic, network cabinet, security cables, and mini LAN SOHO systems to clients in the Americas, the Middle East, Africa, Asia, Western Europe, and Australasia. Our products are well marketed under the brand Solitone.

Daily Output of 560,000 Meters

By utilizing 10 production lines and being supported by 250 to 300 workers in our 16,000sqm factory, we can turn out 560,000 meters daily. To guarantee the quality, we have nine to 14 QC auditors with an average experience of 13 years. They perform piece-by-piece inspections at each production level before delivery. We have an R&D team composed of five to nine engineers with an average experience of 10 years. They can produce customized items. To keep your option fresh, we release three to five new models per month.
