

Specifications:

1. HEPA of high efficiency, activated carbon and Nano cold catalyst
2. Humidifier
3. UV air purifier
4. Remote control
5. Time setting

Features:

1. Negative anion releasing: 2 x 10,000,000cm³
2. Remote controller and touch panel control
3. Three-grade of wind speed control, large flow rate rapidly purifies indoor air
4. 1-12H timer with sleep mode function
5. 7-stage purifying:
 - ① Pre-filter
 - ② Cold catalyst filter
 - ③ Cellular activated carbon
 - ④ Antibacterial and antiviral non-woven fabric
 - ⑤ High-efficiency HEPA 0.01 micron
 - ⑥ Negative ions
 - ⑦ UV sterilization
6. High efficiency motor: quiet, low electricity consumption and 30,000 hours lifespan
7. Optional equipment: vitamin C/strong removal of formaldehyde
8. Efficient area: control up to 40 m² of coverage

Functions:

1. Removes odors, tobacco smoke, fume, food smell, beverage smell and pet smell
2. Eliminate dust, pollen, allergy and mold
3. Kills bacteria, virus and germ
4. Helps customer's breathe and sleep better
5. Improves human immunity
6. Clear static, restore body's activity
7. Clean indoor air, dust and dust fall
8. Kills bacteria, remove virus microorganisms
9. Increase brain oxygen and enhance function of cardiovascular system
10. Treatment of acidic system disease is blood filter
11. Removing formaldehyde, benzene and other harmful chemicals

Applications: home, living room, hotel, school, clinic, hospital, kitchen, warehouse, garage, restaurant, outdoor.

What is the advantage of air purifier?

1. Air Purifier + Ionizer Design (2 in1)
2. Quality: Top Rated HEPA Filter Produce Clean Air
3. Efficient: GREE Customized Motor, Quiet, Save energy

4. Quiet: 17.4dB~55dB, Won't Bother Your Sleep.
 5. Air Quality Sensor: From SHINYEI KAISHA (Japan)
 6. Housing Use 100% New ABS From LG
 7. Safety: Child Lock Function
 8. Ultra-thin with Clock Indicator
- CE, CB, Rohs, EMC, CQC, CCC, ERP, GS Approval
