

SC001

Key Features

1. No need for wiring and power supply

4G solar security cameras are powered by solar energy and do not require an external power supply. They can be automatically charged as long as there is sunlight, solving the power supply problem in remote areas or without electricity.

2. Remote monitoring and real-time transmission

The camera has a built-in 4G module, which can be directly inserted into a SIM card to achieve remote access and real-time transmission through the 4G network. Users can log in to the Yoosee app via mobile-phone to achieve remote monitoring and status visualization.

3. Adapt to various environments

4G solar security cameras are waterproof and dust proof, adapt to various outdoor environments, and can work stably in bad weather.

4. Low power design

The camera is in sleep mode when not working, with extremely low power consumption. It only works when awakened, greatly extending the battery life.

5. Easy to install

The integrated 4G camera and solar power supply system are free of installation and wiring, reducing construction costs and time.

6. High definition and multiple functions

The camera has a high-definition image sensor and an advanced image processing engine, supporting multiple shooting modes, such as infrared night vision, motion detection, etc., to meet the needs of different scenarios.

7. Environmental protection and energy saving

Using solar power to reduce carbon emissions and energy consumption, in line with the requirements of green environmental protection.

These advantages make 4G solar security cameras have a wide range of application prospects in remote areas, the wild, and areas in cities where wiring is not convenient.

Product Photo	
Model	SC001
PT Angle	350°
Lens	120° (Diagonal), 101° (Horizontal), 54° (Vertical)
Night Vision Distance	IR 15 m, Color Night Vision 15 m
Max Resolution	4MP, 2560*1440
Video Compression	H. 265/H. 264
Audio Bit Rate	Self-Adaptive
Local Storage	64GB Micro SD Card(Up to 256GB optional)
Cloud Storage	Yoosee cloud storage
Operating Conditions	-20 ° C to 50 ° °C (-4° F to 122 ° F)
IP Grade	IP65
Power Supply	DC 5V/2A
Battery Capacity	9000 mAh
Power of Solar Panel	5W
SIM Card	SIM Card Included, No Contract, with Unlimited Data in 7 Days
AI and Voice Assistant	Human/ Vehicle/ Motion Detection AI
Product Dimensions	7.20 × 4.57 × 6.52 inch (183 × 116 × 166 mm)
Net Weight	1.84 lb (835 g)
