

Technical Specification Sheet

Item	Specification
Product Name	X9 Pro Electric Scooter
Vehicle Type	Electric Scooter / Electric Motorcycle
Motor Type	Brushless DC Motor
Motor Power	800W
Rated Voltage	60V
Controller Type	9-Tube Intelligent Controller
Maximum Speed	45 km/h
Battery Position	Integrated Battery
Drive Type	Rear Hub Motor
Brake System	Disc Brake
Tire Type	Vacuum Tire
Tire Size	14 × 2.75 inch
Maximum Load Capacity	245 kg
Display Type	LCD Digital Display
Smart Type	Digital / Electronic
Gear System	Single Speed
Lighting System	LED Lights
Safety Features	Standard Turn Signals
Frame Material	Steel (Heavy Duty Frame)
Charging System	Electric Charger
Application	Urban Commuting / Personal Transportation
Packaging Size	145 × 35 × 75 cm
Certification	CE / RoHS

Product Highlights:

- Powerful **60V 800W brushless motor**
- High-speed performance up to **45 km/h**
- Strong load capacity up to **245 kg**
- Stable **14-inch vacuum tires**
- Intelligent controller for smooth operation
- LCD display with riding information
- Suitable for wholesale and OEM/ODM electric mobility solutions

Model Number: X9 Pro

Product Category: Electric Scooter / Electric Moped / Electric Motorcycle
