

Specifications

Specifications				Product Configuration
Product Name	Wireless air pump intelligent charger	Product Model	P003	1.Pump X1 2. Adapter x3 3. Valve tube xl 4. Packing box X1 5. Power cord X1 6. Manual X1 7. Storage bag x1
Product Material	ABS	Charging Voltage	DC 5V/2A	
Product Size	158x71x52mm	The output Voltage	DC 5V/1A	
Color box Size	10*18*5.2cm	Battery Capacity	3*2000mAh 12V	
Carton Size	44*20*30cm	Operating Temperature	-10~45°C	
Product Net Weight	470g	Storage Temperature	-20 ~60°C	
Product Gross Weight	720g	Charging Time	3-4 Hours	
FCL Net Weight	15.5kg	Emergency Lighting	1 LED Light	
Qty	20	Style/Color	Black	
Valve Tube Size	The length of the Valve tube is 150mm (including the gas nozzle)	Cylinder	15 Single Cylinder	
Air Efficiency	The car is inflated from 0-2.5bar for about 10-12 minutes			
Pressure can be set	150PSI/10.3BAR/990KPA/10.5Kg/cm ²			
Product Features	Tire pressure detection, air pump, night lighting, and built-in power bank function.			
Protective Function	It will stop automatically after 10 minutes of pumping up. (Protect the battery and motherboard)			
Features	The mini size is compact, heavy and light, and easy to carry and store. It is a self-driving tour, outdoor activities, daily necessities.
