

White noise sleep aid lamp CM 303

Natural Ecological Music, Comfortable Sleep Aid

Indirect lighting/breathing lights, long-lasting endurance

Timing function, Bluetooth connection

Rhythmic changes in light and dark gradually gather drowsiness, providing sound and light healing and comfortable sleep assistance.

2-inch high-end speaker with clear mid to high frequencies and surging low frequencies, providing you with a better auditory experience

360 degree surround sound field, with a classic guide cone design that is consistent, can provide a good listening experience at any angle.

Listen to the sounds of nature and release negative emotions
