

QR Code Dynamic Access Control With Wiegand Output

Volume	86*86*42mm
Material	PC material
Reading window	tempered glass
System interface	Wiegand, RS485, RS232, USB
Decoding support	QR, one-dimensional code
Working voltage	Support 4-15V wide voltage input
Working current	800mA
Reading speed	<200ms
Reading distance	0-20CM
Scan code features	automatic induction, buzzer prompt
Light source	Built-in LED light source, anti-glare interference
Card reading distance	3-6CM
Operating system	Windows (xp 7810), Linux
Indicating status light	red work light, green feedback light, emerald green network light
Card reader type	non-contact IC card, ID card
