

Typical application	Liquid(strong corrosion,low dielectric constant,adhesion,high temperature and high pressure,Built-in heating Coil,ladder,floating plate and other complex occasions)
	Dust(flyash,limestone powder,cement powder,concrete and other media)
	Solid(small particles,grain,gravel,sand and other media)
Product model	NYRD
Antenna form	Cable type
Antenna material	304、316
Echo sampling	55 times/s
Measuring range	30m
Measurement accuracy	0.05%~0.1%F.S
Power supply	24VDC(two wire,four wire),220VAC
Signal output	4...20mA/HART/RS485/Modbus...
Process temperature	-40~+130℃
Process pressure	-0.1~2.0MPa
Process connection	Thread,bracket,flange,clamp(optional)
Electrical interface	M20×1.5,½"NPT
