

TPU+PC 3-in-1 Solid-Color Printed Accessory Phone Case

Product NO.:PA141

Material:TPU+PC

Craft:Painting + Epoxy

MOQ: 200pcs/model, 40pcs/color

Product N.W:62.00g

This 3-in-1 solid-color printed accessory phone case is constructed with premium TPU and PC composite materials. It combines the flexible shock-absorption of TPU and the rigid anti-drop strength of PC, delivering reliable dual-layer protection against drops, bumps and daily scratches for mobile phones.

Boasting elegant solid-color printed accessory patterns, it features sleek and minimalist styling suitable for diverse consumer preferences. Adopting fine painting and epoxy craftsmanship, the painting process creates uniform, rich color on the case surface. The epoxy coating locks the printed pattern firmly, effectively preventing color peeling and fading while bringing a smooth, comfortable hand touch.

Its detachable 3-in-1 split structure enables easy installation and removal without scratching the phone edges. Regarding order requirements, the minimum order quantity is 200 pieces per model, with 40 pieces per color. Each case weighs only 62.00g, lightweight and slim, avoiding bulkiness when holding the phone. It is a great wholesale option for mobile accessory vendors and e-commerce sellers, matching customers who favor simple yet stylish protective phone covers.
