

Features

1. All-in-one with 4G Network, immediately monitoring within a second turning on!
Built-in 4G network chip, with its own network, can be deployed monitoring & recording anywhere in seconds.
2. 15days Monitoring unplug in. Upgrade ultra-low power chips, quick wake-up function. When the human body infrared is triggered, the camera quickly starts recording and completes the video upload, and then quickly enters a low-power sleep mode.
3. DV Mode long standby motion sensor recording without WiFi network. Whether it is a corridor, yard, supermarket, living room fixed-point monitoring, or outdoor sports, cycling, walking, multi-purpose to meet the different needs.
4. Support two-way voice call. Built-in speaker and high-sensitivity microphone, pickup range up to 5 meters, can talk to family members at any time via mobile phone.
5. Local & Cloud Storage. Support local Micro-SD card to store the alarm video. After the memory card is full, the new video will automatically cover the old files; 30 days free stored in the cloud .

Specifications

O.S.	Lite OS Low Power Consumption System
Chip	Hi3518E V300 / Ingenic T31ZL
Sensor	1/2.9inch CMOS Sensor
Angle	140°Diagonal
Night Vision	Light sensor automatic switching, 6pcs 940nm SMT IR LED
Resolution	1080P@30fps
Codec	H.265 main Profile/H.264 Baseline Profile/MJPEG/JPEG Baseline
Working Mode	AP Hotspot Connection、IP Remote Connection、DV Mode、Motion Detection Mode
Sound	Built-in 8Ω 1W Speaker、38dB Microphone
Power	Built-in 3000mAh Polymer lithium batteries, daily working time 15days for One Charging
Storage	Micro-SD Card Max. 128GB
Connect	4G Network
Environment	Working Temperature: -10~50℃, Working Humidity <90%
App	FOWL

Package

Body Size	4.1 x 4.1 x 5.1cm 78g
Weights	Unit Weight: 256g
Package Size	16.5 x 96.0 x 53.0cm
Packing	CTN Size: 50*34*30cm; 50pcs/ctn; N.W.: 13.0KG; G.W.: 14.5KG;

Quotation

MOQ: 500PCS; Price Term: FOB SZ; Price Validation: 7 Days
