

Specification

Outlook	Model	HS2180 Solar Garden Light
  	Main Features	◆sense the human move then light on , and light off after human leave ◆ 3W solar panel ◆ 4w high power LED lighting, 8 meters lighting distance ◆ easy to install, no wiring, solar power supply ◆ built-in 4000 mah rechargeable battery ◆Triggering time: 0.2-0.25 Second ◆Spray-water protected IP56
	Main Use	Night Lighting, Surveillance
	Image Resolution	2M 1920x1080
	Video Resolution	FHD:1920x1080/30fps
	Lens Angle	F/NO2.0; FOV=120°; Auto IR filter
	PIR Sensor Angle	120°
	Triggering Distance	8m (Below 77°F/25°C at the Normal Level)
	Memory	Maximum support for 512G TF card
	USB	Micro USB 2.0 can be connected to a computer and charged
	MIC	YES
	Solar Panel	3.0W monocrystal silicon
	Lighting lamp	4W high-power lighting LED, lighting distance 8~10M
	Lighting Mode	Light on under EV5, light on when sense the move, and the light off after people leave (keep lighting for up to 5 minutes if human keep moving)
	Working Mode	photoes and videos
	Operation Buttons	Three switches (video, photo, OFF/ PC download and parameter setting), reset key
	Computer Connection Settings	The default phototaking 5 consecutive shots (adjustable 1~10, continuous shot interval 0~5S)/video 10S (adjustable 3S~5 minutes, automatic shutdown after the hunman leaves)
	Date stamp	Support to set the date time on computer, date time displayed on the photoes and videos
	Installation Height	2-3m
	Power	Built-in 4000mah rechargeable lithium battery
	Spray-water Protected	Spray-water protected(IP protection class54)
	Operating Temperature	-20℃ to +60℃
	Memory Temperature	-30℃ to +70℃
	Sizes and Weight	225X160X94MM/490g
