

LXZC-11 CURRENT TRANSFORMER

□ Zero-Sequence Current transformer

Match with signal equipment and protective relaying equipment when power system produce zero sequence earthing current,act the equipment components to realize protective or monitoring function.

It adopts stainless steel metal shell and easy installation save much room,many specs' high accuracy zero sequence CT are power system (such as neutral earthing, big current earthing,small current earthing or arc suppression coil earthing) etc.

Technical Data

- 1、Rated secondary current: 5A、1A
- 2、Power frequency withstand voltage: 3kV
- 3、Rated frequency: 50/60Hz
- 4、Installation site: Indoor
- 5、Technical standard: IEC 60044-1: 2003

Specification

Model	LXZC-152R50C			LXZC-152R50P	
Purpose	Measuring current transformer			Protective current transformer	
Rated current ratio	Accuracy class and rated burden (VA) COSΦ=0.8				
	0.5	1	3	10P10	10P5
20/1		0.2	0.2		
30/1		0.4	0.5		
40/1		0.6	1		
50/1		1	1		
75/1		1.5	1.5		
100/1		2.5	3.75	1.5	2.5
150/1	1.5	3.75	5	2.5	5
200/1	2.5	5	5	3.75	7.5
300/1	3.75	7.5	7.5	5	10
100/5		2.5	3.75	1.5	2.5
150/5	1.5	3.75	5	2.5	5
200/5	2.5	5	5	3.75	7.5
300/5	3.75	7.5	7.5	5	10

Note: Upon request we are glad to offer transformers according to other technical specs.
