HE-408B
450ml
Patented

Product Features

1. Suitable for foam soap and diluted liquid soap such as hand cleanser, shower lotion, shampoo, facial cleanser, dishwashing liquid... etc.
2. Responsive, stable, & precisely controlled.
3. Saving consumption: After the soap is diluted and foamed, the consumption of soap is greatly reduced.
4. Multi-stage spray volume adjustment, dosage controllable.
5. Rechargeable, can be used after charging or directly plugging in.
6. Intelligent power saving and sleep mode designs extend battery life.
7. Low power warning, remind to recharge.
8. Over-discharge protection circuit design prevents the battery being damaged due to not been charged for a long time.
9. Cute and lovable appearance, no installation required: flexible placement.

Technical Parameters

Power Supply	3.7V/1800mAh rechargeable lithium battery (charging or direct plugging in to use)
Spraying Time	0.3s, 0.6s, 0.9s, 1.2s, 1.5s
Maximum Sensing Distance	4cm(±1)
Operating Ambient Temperature	5°C~40°C
Operating Ambient Humidity	≤80%
Maximum Capacity	450ml
Net Weight	207g
Dimension	104x115x161mm / 4.09x4.52x6.34inch
