

**019 Deluxe Memory Foam Lounger**

Shredded Memory Foam

Removable Cover

Antiskid Bottom

Memory foam works with your dog's weight and temperature to create a snug nest. As well as being stylish, our memory foam bed is made of responsive body moulding memory foam, reducing the amount of tossing and turning to provide extreme comfort for your pets.

Memory foam benefits dogs suffering from arthritis, hip dysplasia, joint pain and aging or overweight dogs as it reduces pressure points and offers maximum support.

Not just for older dogs!  
A well supported bed helps with aging of joints in the future.

Chopped Memory Foam Fill
