

ANYTH-1 龙门磨边机

产品详情：（中文）

龙门磨边机

本机具有加工各种直线型边、曲线型边的功能。换上 $\phi 250$ 的锯片，可进行拉槽，本机最新采用了浸油全封闭上置式横向运行轨道变频无极调速、拖板升降、配电动及手动二种功能，具有负载能力强，稳定性好，使用寿命长，成本低等优点。加工进刀速度可任意设置，以满足各种加工需要。本机还设计自动、手动双动作升降，极大减轻了劳动强度，提高了生产效率。

（英文）

Portal Edge Grinder

This machine has the function of processing various linear edges and curved edges. The $\phi 250$ saw blade can be used for slotting. The machine adopts the immersion oil fully enclosed upper horizontal running track frequency conversion stepless speed regulation, the carriage lifting, the electric and the manual functions. It has strong load capacity and stability. Good character, long service life and low cost. The machining feed speed can be set arbitrarily to meet various processing needs. The machine is also designed with automatic and manual double action lifting, which greatly reduces labor intensity and improves production efficiency.

技术参数：

龙门磨边机		
型号	unit	ANYTH-1
锯片直径	mm	$\Phi 250$
磨轮直径	mm	$\Phi 140-\Phi 160$
加工长度	mm	3500
加工厚度	mm	150
主电机功率	kw	7.5
总功率	kw	9.18
耗水量	m ³ /h	1.8
总重量	kg	2600
外形尺寸 (长 x 宽 x 高)	mm	4350X2300X960

英文:

Portal Edge Grinder		
Type	unit	ANYTH-1
Blade diameter	mm	Φ250
Grinding wheel diameter	mm	Φ140-Φ160
Max. cutting length	mm	3500
Max. cutting thickness	mm	150
Power of main motor	kw	7.5
Gross power	kw	9.18
Exhausted water	m ³ /h	1.8
Total weight	kg	2600
Dimension (L×W×H)	mm	4350X2300X960
