

Monitor parameter

Work temperature range	-20℃～70℃
Signal reception frequency	433.92MHz
Working humidity	0～100%
Operating voltage	12V
Receiving mode	FSK
Alarm method	audio, light, visual flash
Storage temperature	-40℃～85℃

Sensor parameter

Working battery	Military lithium battery
Sensor chip	German Infineon
Working humidity	0～100%
Work temperature range	-40℃～100℃
Pressure measurement range	0～3.5Bar
Transmitting frequency	433.92MHz
Transmitting power	≤5dBm
Temperature display precision	±1℃
Pressure display precision	±0.1Bar
Battery lifespan	5 years
