

Jianli vents louvers Key Features:

Certifications:

ISO 9001, ISO 14001, ISO 45001, and CQC.

Aluminum Profiles:

6063-T5/T6 aluminum alloy extrusion profiles.

Finish treatment:

Powder coating, electrophoresis, PVDF coating, anodizing, and wood grain colors. Standard colors include matte black, white, ultra silver, clear anodized, and natural clean aluminum. Customized colors are available based on customer requirements.

Applications:

Suitable for personal housing, villas, residential series, and commercial series.

Customization:

Open to discussing any workable ideas or customized requirements.

Additional Specifications:

•Frame Depth Options:

50mm, 60mm, 80mm, 100mm, 120mm, 160mm, 180mm, and 200mm .

•Louvers function:

Louvers serve a critical need to allow air flow through openings in buildings while rejecting unwanted elements such as water and airborne debris.

•blade section styles:

a variety of pre-engineered blade type base on the different needs.

•Ease of installation:

modular design and integral alignment features for ease of installation.

•Construction:

Available with other building components.

•aesthetic appeal:

create captivating facades.

•customization options:

from color choices to panel configurations, enabling architects and designers to manifest their creative visions with precision.

•versatility:

Control solar heat gain and harvest natural daylight to meet sustainable design goals.

•Sustainability:

High recycled content in aluminum framing.

•Availability:

Offered through Advantage by Jianli
