USB-C to HDMI Mini Converter 4K@60Hz Allowing PC to Extend Internal Monitor on HDMI Port

The USB-C (male) to HDMI (female) adapter is designed for connecting a USB-C enabled computer (Windows/Mac/Chromebook) to HDMI enabled monitors or display devices such as TVs and projectors. The adapter supports audio and display resolutions up to 4K3960*2160@60Hz. The device has special compact form factor and minimal footprint, making it perfect for on-the-go or at a desk use, without blocking other interfaces. The device is compatible with all USB-C ports that support DP Alt Mode and is also compatible with Thunderbolt 3 and Thunderbolt 4 ports.
