

# OR-925

## Electronic Waybill Printer

### Characteristic

- Smart detection enables automatic paper feeding and ejection.
- Integrated design for effortless paper loading.
- Features intelligent label peeling functionality.
- High-speed printing significantly reduces processing time.

Gear dust prevention

High-speed printing

Multi-interface

## Specifications

|                           |                                                                                         |
|---------------------------|-----------------------------------------------------------------------------------------|
| Product Model             | OR-925                                                                                  |
| Print Method              | Direct Line Thermal                                                                     |
| Resolution                | 203DPI (8dot/mm)                                                                        |
| Print Speed               | 160mm/sec (MAX)                                                                         |
| Inner Code                | Supported 11 types font size                                                            |
| Print parameters          | Support to download the Logo trademark                                                  |
| Print Command             | TSPL/CPCL command (ESC/POS command)                                                     |
| Media Sensor              | opposite type                                                                           |
| Interfaces                | USB / LAN / Bluetooth /WIFI(optional)                                                   |
| Thermal Paper Types       | continuous paper, label paper, folded paper, tag paper                                  |
| Printer Dimension         | 215*180*120mm                                                                           |
| Unit Weight               | 1.55kgs (with accessories)                                                              |
| Pieces Per CTN            | 8 Pieces                                                                                |
| Printer Color             | White and Black                                                                         |
| Effective Print Width     | 25-100mm (Max 800 points)                                                               |
| Available Max Paper Width | 104mm                                                                                   |
| Paper Thickness           | 0.06-0.30mm                                                                             |
| Charging Method           | external charger DC 24V/2.5A                                                            |
| Print Reliability         | 100000000 pulse / dot or 50km                                                           |
| CTN Dimension             | 51*48*29.5cm                                                                            |
| Gross Weight              | 13.5kg                                                                                  |
| One-dimensional code      | UPC-A / UPC-E / JAN13 (EAN13) / JAN8 (EAN8) / CODE39 / ITF / CODABAR / CODE93 / CODE128 |
| Two-dimensional code      | QR code,PDF417                                                                          |
| Printer Driver            | Win2003 / WinXP / Win7 / WIN8 / WIN10 / WIN11/MACOS ; Support IOS / Android             |
| Mechanical Noise          | less than 60dB (A weighted RMS)                                                         |
| Accessories               | USB 1 x 1M Cable、Power 1 Piece、Manual 1 Piece                                           |
| Environmental             | Operating Temperature/ Humidity: 0 °C ~ 45 °C/10% ~ 80% RH (no condensation allowed)    |
|                           | Storage Temperature/Humidity: -20 °C ~ 60 °C/5% ~ 95% RH (no condensation allowed)      |

## Application Scenarios

Foshan Orui Intelligent Technology Co.,Ltd.

Address: 4th Floor, No. 2, Cuizhu Middle Road, Shunde District, Foshan City,  
Guangdong Province, China  
Telephone: + 86 -(0) 757 - 2888984  
E-mail:
