Usage

The microfiber cloth strips are made of high quality microfiber, which is easily to remove ground dirt, dust, oil, hair, pet hairs, footprints, small particles. suitable for of Various types floor cleaning as hardwood, stone, tile, especially the wooden floor. Super water absorbent and lint free. Safe for all surfaces! Great for dry/wet use!

Professional quality:

The microfiber cloth strips are made of commercial grade materials, that makes the microfiber mops are effective for heavy usage at home, office, schools and hospitals.

Dry & wet use:

The microfiber mop with cloth strips is super water absorbent. So the mops can dry the floor immediately after mopping. The microfiber mop also fits for most hard-surfaces, such as wood, hardwood, laminate, tile, ceramic, vinyl, marble, glass, stone, bamboo, cement floors etc.

Antibacterial:

The microfiber's antimicrobial properties help reduce the spread of bacteria and does not hold odors. So the mop with microfiber cloth strips is more safe.

Works great: The microfiber mop with microfiber cloth strips acts like a magnet to absorb and pick up debris easily, locks them in the fabric fibers until the fabric is washed. This mop can be suitable for drying wiping to attract dirt, dust and hair.

Color-assorted:

We produce the microfiber cloth strips in any customized colors.
