

Model: APK001

Standard Configuration Introduction

Private mode patent products, computer drive free direct reading condenser microphone, mobile phone microphone, suitable for recording, live broadcasting, game.

Functions: noise reduction function, mute function, light adjustment, output volume, ear feedback listening.CE FCC ROHS UKCA PSE Certification

Specification:

Material: plastic

Color: black

RGB lighting effect: self-discoloring when starting.

Packing: color box

Power supply mode: four-in-one power suppl,including apple, type-c and USB interface

Microphone head: 140 capacitor microphone

Directionality: heart-shaped pointing

Sensitivity: 25mv/pa (-36db 2db)

Frequency response: 20HZ-20KHZ.

Signal to noise ratio: 78dB

Maximum sound pressure level: 110dB

Dynamic range: 112dB(1Khz.<1%T.H.D)

Sampling rate: 192KHz/24Bit.

Monitoring mode: headphones/stereo

Adjustment function: output volume

Connecting cable: 4-in-1 line, 2 meters long, black.

Connection port: Type-C interface

Output interface: USB, Apple, type-c interface.

Listening interface: 3.5MM diameter

Functions: noise reduction function, mute function, light adjustment, output volume, ear feedback listening.

Packing list:

Condenser microphone * 1

Four-in-one line * 1

Bracket * 1

Metal spray screen * 1

Instruction manual * 1

carton box * 1

Packing information:

Color box: 14 * 13 * 19.5cm

Weight of one set: 0.42kg

32 sets in one carton

Carton size: 59.5 * 41.2 * 54.5CM

Carton weight: 14.6kg
