

DROP FORGED BYPASS LOPPING SHEARS

Description

DROP FORGED BYPASS LOPPING SHEARS

Features

Lopping shears are designed with various cutting heads allows fast, precise cutting action. The oval steel handles are the most common - they allow use of maximum power by tough shrubs. The strengthened aluminum handles are very sturdy, reducing arm strain and allowing longer trimming sessions. Traditional strong hardwood handles give the vintage look, but of solid grips, especially in cold weather.

Specification

Item No.	HT460818
Construction	Drop Forged
Blade material	Chrome Vanadium steel
Blade finished	Polish
Heat treatment	48-50HRC
Handles	Aluminum
Grip	PP+TPR
Cut capacity	45mm
Size	740mm
