

Power supply (transmitter)	AC/DC 12-24V
Action current	42mA (when DC12V power supply)
Quiescent current	7.3mA (when DC12V power supply)
Relay output	Normally open/normally closed
Relay contact capacity	DC24V 1A
Infrared modulation frequency	38KHz
Response time	30ms
Infrared sensing distance	3~17cm adjustable
Working temperature	-42℃~45℃
Working humidity	10~90%RH
Appearance size	86x86mm (Panel)

LED LIGHT PROMPT

Adjustable sensing distance

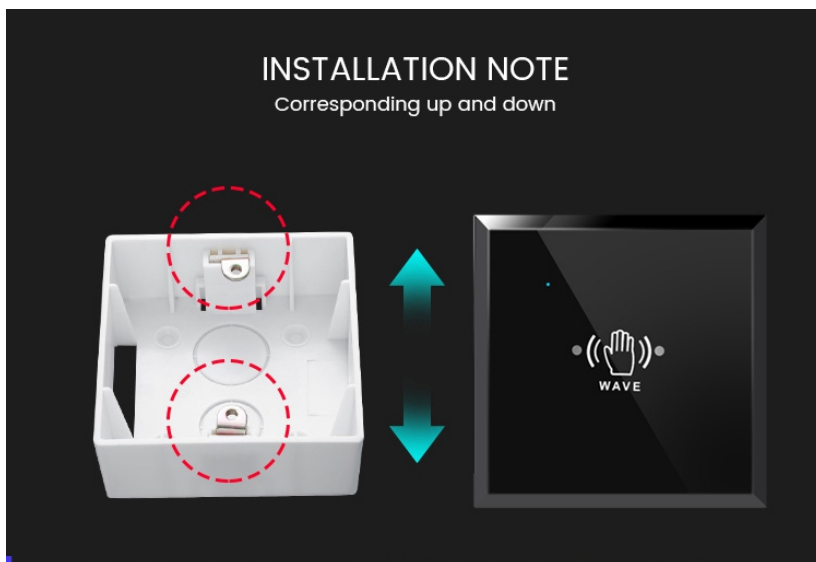

Standby blue light flashes slowly

Induction red light flashes quickly

INSTALLATION NOTE

Corresponding up and down

THREE OPTIONS

Wired, one for one (wireless), one for two (wireless)

Wired

one for one (wireless)

one for two (wireless)
