SOMOSTEL i710 True Wireless Earphone

SOMOSTEL i710 true wireless earphone are practical TWS Bluetooth earbuds built for daily commuting and sports. These in-ear wireless headphones adopt upgraded ergonomic structure, bringing lightweight and almost unnoticeable wearing experience.

Automatic Reconnection & Memory Matching

Take these TWS earbuds out of the charging case, and they will auto reconnect to your device instantly. The true wireless earphone supports single-ear use and seamless left-right switching, bringing totally free and convenient operation experience.

Ergonomic Comfortable Stable Fit

Designed with optimized ergonomic shape, these Bluetooth earbuds fit ear contours perfectly. The true wireless earphone stays firmly during running, jumping and workouts. You can wear the in-ear wireless headphones for hours without soreness.

Hi-Fi Stereo Audio Experience

Equipped with premium speaker driver, these TWS earbuds deliver rich bass and clear treble. The true wireless earphone offers immersive high-fidelity sound, letting you enjoy music just like live concert.

Bluetooth V6.0 Low Power Chip

These in-ear wireless headphones adopt advanced Bluetooth V6.0 chip. The

true wireless earphone features stable signal transmission within 10 meters,
lower power consumption and longer service life.

Reliable Performance For Sports & Daily Use

The stable structure of the TWS earbuds prevents slipping during exercise.

The true wireless earphone supports long-time playback. With Type-C
charging design, these Bluetooth earbuds become ideal audio companion for
daily life, fitness and travel.
