

Desktop Digital Interface Microphone MIC40

Performance Features:

Specifically designed for web conferences, broadcasting, and interviews;

Built-in omnidirectional mic with 2m+ pickup range and 360° coverage for clearer sound;

Combines the advantages of conference mics and omnidirectional mics, setting a new standard;

Advanced RFI shielding to block mobile phone interference;

Non-slip rubber base reduces sliding and minimizes desk vibration noise;

Touch-sensitive mute button eliminates mechanical switch noise;

Compact and portable for easy operation in any setting;

Pairs perfectly with our network audio control center for unparalleled performance.

Specifications:

Directivity: Omnidirectional

Frequency Response: 40Hz–20kHz

Sensitivity: -40dB (7.0mV)

Output Impedance: 200Ω

Max SPL: 138dB at 1kHz

S/N Ratio: 67dB at 1kHz

Dynamic Range: 111dB at 1kHz (Max SPL)

Pickup Pattern: 150° conical coverage (60° elevation angle)

Dimensions: 85×95×23mm (W×D×H)

Power: 48V phantom power via 5m balanced cable
