

Curved Power Rail (Surface mounted)

Concealed wires design / V0 flame-retardant PVC

Multi-protection features for extra piece of mind

- 1. Groove design**
Features meticulously designed grooves to prevent accidental contact with live electrical parts, and V0 flame-retardant PVC insulation to minimize the risk of fire or electric shock
- 2. Safe grounding design**
Designed to ensure effective grounding, which helps prevent risks of electrical interference or damage to connected equipment.
- 3. Segregated design**
The busbar design separates the distribution of live and neutral lines, providing an extra layer of safety against electrical faults and overload.
- 4. Child safety**
Socket module designed with safety shutter to protect children from power hazards.
