SOMOSTEL The GT5 MAX Smart Watch is a high-performance multifunctional smart watch built for modern business people, sports lovers and daily users. This smart watch combines stylish metal appearance with powerful practical functions, making this smart watch your ideal wearable companion all day long.

This smart watch features a 1.52-inch full touch large screen with 240*240 resolution. The wide-view display of this smart watch delivers bright, vivid visuals, so you can clearly check all data on this smart watch under outdoor strong sunlight. The GT5 MAX smart watch supports wireless calling function. When your phone receives incoming calls, you can answer or hang up directly on this smart watch, freeing your hands during driving, running and working. For outdoor enthusiasts, this smart watch integrates multiple sports modes. Whether you run, cycle, hike or play ball games, this smart watch can real-time record exercise steps, distance and speed to track your workout status. Besides, this smart watch offers 7-day weather forecast function. You can check weather information on this smart watch in advance to reasonably arrange travel and outdoor activities.

Personalization is another highlight of this smart watch. There are abundant customizable watch faces for you to select. You can even upload your favorite photos as the watch face background of this smart watch, creating exclusive style for your GT5 MAX smart watch.

In terms of configuration, this smart watch adopts Bluetooth 5.1 stable connection, equipped with 220mAh battery and supports wireless magnetic charging. Available in black and silver two classic colors, this smart watch comes with silicone strap as accessory. Durable structure, rich functions and elegant design make this smart watch a hot-selling wearable device for wholesale.
