

Comprehensive Protection at your Fingertips

Arms / Disarms security system via NFC tags

Remote management of learning or removing tag

IPX5 waterproof housing

Tamper protection for unauthorized removal or sabotage

Integration of BUS system for flexible deployment

TG-15N-BUS

BUS Tag Reader

TG-15N-BUS is a BUS tag reader that integrated with NFC labels for you to quickly arm or disarm your alarm system with just one simple swipe. Users can conveniently perform remote management, such as learning or removing tag, through the control panel's web interface. TG-15N-BUS provides you the easiest and quickest way to employ your home alarm system.

TG-15N-BUS is designed to be installed at the entrance of your home for easy convenient access of your security system before entering the house. Moreover, TG-15N-BUS is waterproof according to the IPX5 standard and provides weatherproof protection. TG-15N-BUS simplifies the operation of your security system and gives you the protection you need.

Specifications

TG-15N-BUS BUS Tag Reader

Power Source	From BUS connection to the control panel: BUS 13.5V DC
Current Consumption (In Standby Mode)	4 mA
Current Consumption (Maximal)	23 mA
NFC Protocol	ISO 14443 A/B
Operating Temperature	-10°C to 45°C (14°F to 113°F)
Operating Humidity	Up to 85% non-condensing
Dimensions	112 mm x 82.5 mm x 23.4 mm

**Note: Actual battery life may vary due with device settings, usage patterns, and operating environment.*
