

How to choose a suitable ultrasonic level meter?

## > APPLICATION <

Can measure Volatile liquid or Corrosive liquid and Solid

### 01 Normal type

## 02 Anti-Explosion proof type

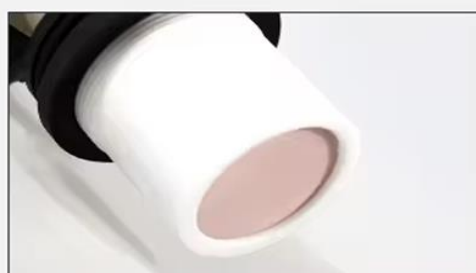

High performance level meter

Low Cost Level meter

All anti-explosion proof type had passed **ATEX** and **ExiaII** certification.

## 03 Anti-Corrosion type

## > RANGE <

Find the right products for different ranges

### Small Range

Range  $\leq 1\text{m}$

1m  $\leq$  Range  $\leq 5\text{m}$

5m  $\leq$  Range  $\leq 25\text{m}$

### Medium Range

30m  $\leq$  Range  $\leq 80\text{m}$

### Long Range

(Integrated type)

(Split type)

(Anti-Explosion type)
