

Model: BM-86

Standard Configuration Introduction

Private mode patent products, computer drive free direct reading condenser microphone, mobile phone microphone (need to be equipped with a conversion line), suitable for recording, live broadcasting, games and CE FCC ROHS UKCA PSE certification

Specification:

Material: Aluminum alloy

Net material: iron net

Tube body color: black

Net color: black

Packaging: Neutral English color combination

Power supply mode: USB power supply (5VDC) Directivity: Heart ring

Sensitivity: -36 dB plus or minus 1db

Frequency response: 20 Hz-20 KHZ

Output impedance: 150 euros

Current consumption: 3mA

Output port: USB port

Sampling: 48000HZ/16Bit

Monitoring method: earphone/audio

Connection cable: USB interface, cable length 2 meters, black

Packing list:

microphone*1

Computer cable *1

Plastic tripod support *1

Small blowout preventer*1(optional)

Outer cotton sheath*1

TYPE-C conversion head*1

Instruction manual*1

Packing information:

1 set package

size: 27*21.5*6.5CM

weight: 1KG

20 sets/carton

size: 44*35.5*56CM

weight: 21KG
