

Titanium Diboride Powder

Commodity	Titanium Diboride Powder						
Molecular formula	TiB ₂						
Molecular weight	69.49						
Specification	Ti	B	O	C	Fe	Average particle size (D ₅₀)	Applications
1 st Grade	68% min.	30% min.	0.5% max.	0.5% max.	0.1% max.	3-5 μm	Electrocoating and so on
2 nd Grade	67.5% min.	30% min.	0.8% max.	0.5% max.	0.1% max.	7-9 μm	evaporator boat and so on
3 rd Grade	68% min.	30% min.	1.0% max.	1.0% max.	0.1% max.	25 μm	cathode material of aluminium electroanalysis etc,
4 th Grade	66% min.	29% min.	1.5% max.	1.0% max.	0.2% max.	Below 20μm	refractory materials and so on
Packing	in bags with vacuum of 5Kg net each, 25kg (25 bags) in drum or as your request.						
Remarks	if you will have the requirements about specifications, please don't hesitate to contact us so as to study it and meet your demands.
