

Technical Parameters

Video resolution	2M Pixels
Video recording length	15S
LED Lumens	500LM
Static State	1.5mA
Battery capacity	4400mAH
Solar panel power	2.4W
TF card storage	Default: 16G, Max. 64G
PIR sensitivity L/M/H	6m/8m/10m
MIC sensitivity	24DB
Intercom volume	80DB
Alarm volume	85DB
Operating Temperature	-10-70°C
WIFI distance	approx.80m

Indicator LED

LED status	WiFi connection
Flash red at 1s interval	Waiting for network configuration.
Flash green rapidly	Adding the device.
Glow green	Adding the device is successful, the device is working.
Glow green and then flash 3 times	Recharging.
Flash green and red at the same time rapidly	Updating the firmware.
