

## X2 Specifications

### Product Description

|           |                                    |                                                                                                                                                                 |
|-----------|------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Model     | X2                                 |                                                                                                                                                                 |
| Category  | Stylish Health Smart ring          |                                                                                                                                                                 |
| Spotlight | 1, Unique Fashion Design on Finger | Epoxy resin+stainless steel.Stylish, cutting-edge Technology, Zero wearing sense                                                                                |
|           | 2, Medical grade Health Management | 7*24hrs health Management: sleep monitor, sport anlysis,body recovery, real heart rate, real SpO2, body temperature, female physiological cycle prediction; SOS |
|           | 3, Smart Leisure life              | touch to control the 3rd parties APPs(short video, music, E-book, photos)etc.                                                                                   |
|           | 4, 3ATM waterproof                 | diving, swimming, washing, bath,etc.                                                                                                                            |

### Mechanical Specifications

|                                  |                 |                                                 |
|----------------------------------|-----------------|-------------------------------------------------|
| Water Resistance                 | 3ATM            |                                                 |
| Outer Ring                       | Epoxy resin     |                                                 |
| Inner Ring                       | stainless steel | 8 sizes for choose, 6#,7#,8#,9#,10#,11#,12#,13# |
| Product Dimensions (L x W x H)mm | 8.5*2.55mm      |                                                 |
| Package Dimensions (L x W x H)mm | TBD             |                                                 |
| Weight                           | 5.5g            |                                                 |

### Mechanical Specifications

|                  |                                        |         |
|------------------|----------------------------------------|---------|
| CPU              | Ultra low power consumption BT chipset |         |
| G-Sensor         | High precision accelerometer sensor    | support |
| PPG              | High precision PPG sensor              | support |
| Touch sensor     | Multi-directional touch                | support |
| Body temperature | Accurate body temperature sesor        | support |
| Flash            | storage ONE WEEK data on ring          |         |
| Bluetooth        | BLE5.0                                 |         |

### Power Specifications

|                   |                  |                      |
|-------------------|------------------|----------------------|
| Typical Usage     | 4-6 days         |                      |
| Standby           | 30 days          |                      |
| Battery Capacity  | 20mAh            | High density battery |
| Battery Type      | Lithium Polymer  |                      |
| Charger Connector | Contact Charging |                      |
| Recharging Time   | <1.5Hours        |                      |

### APP

|                 |                                    |                               |
|-----------------|------------------------------------|-------------------------------|
| APP             | AIZO RING                          | Download via App Store or GMS |
| Mobile phone OS | Android 5.0+, iOS9.0+, Harmony2.0+ |                               |

### Functions

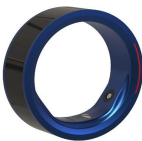

|                     |                           |                                     |
|---------------------|---------------------------|-------------------------------------|
| Control function    | Control short videos      | Tiktok etc. air-click likes, switch |
|                     | Control Music             | palying, pause, switch              |
|                     | Photo                     | self photo                          |
|                     | PowerPoint                | switch, slide                       |
| Language            | E-book                    | page up, next                       |
|                     | Language                  | APP support multi languages         |
| Firmware Upgrade    | OTA Upgrade               | Via mobile APP                      |
| Health Monitoring   | Heart Rate                | Support                             |
|                     | SpO2                      | Support                             |
|                     | HRV                       | Support                             |
|                     | RHR                       | Support                             |
|                     | Body temperature          | Support                             |
|                     | Sleep monitor             | Support                             |
|                     | Monthly period prediction | Support                             |
| Activity Monitoring | Body recovery             | Support                             |
|                     | Daily exercise Record     | Support                             |
|                     | Pedometer                 | Support                             |
|                     | Calorie                   | Support                             |
| Other Functions     | Restore Factory Default   | Support                             |
|                     | Wear Detection            | Support                             |
|                     | Restart                   | Support                             |
|                     | Firmware information      | Support                             |

### Environment

|                       |                              |  |
|-----------------------|------------------------------|--|
| Operating Temperature | -20°C to 50°C                |  |
| Charging Temperature  | 0°C to 40°C                  |  |
| Working Humidity      | 10%-90%RH (non-condensation) |  |
| Storage Temperature   | -30°C to 70°C                |  |
| Storage Humidity      | 5%-90%RH (non-condensation)  |  |

### Standards

|              |                     |         |
|--------------|---------------------|---------|
| Certificates | CE, FCC, ROHS, SRRC | Support |
|--------------|---------------------|---------|
