

Specifications

- * release, update & make advertisement wherever whenever
- * support files in all formats
- * support WiFi, Ethernet (3G network)

LCD panel information:

- * Screen size: 19" TFT LED, LG or AUO Panel
- * Screen resolution: 1440*900
- * Aspect ratio/ Display scale: 16:10
- * Display Support 1080P
- * Viewing Angle: Left & right 85°, Up & down 80°
- * Brightness: 250cd/m2
- * Contrast: 1000:1
- * Color: 16.7M
- * Working life: 50k(h.)
- * Power: 24-36W
- * Voltage: AC110-230V

2. Description of goods

Net Support : WI-FI / 3G / RJ45(Option);
I/O :TF*1,USB*2,HDMI*1,AVin*1,RJ45*1,DCIN*1
WIFI Signage Display : 802.11b/g/n (WEP/WPA/WPA2)

Configuration description:

- * **OS: Android4.2**
- * **CPU: Allwinner A20, Double-core, 1.5GHz**
- * **DDR: 1GB**
- * **Internalstorage: 4GB nand** *
- ***External memory: High-speed 8GB TF card(Max support 32GB)**

- * Support PAD LAN or Wan in real-time monitoring and operation;
- * Real-time MMS streaming media television,

- * RSS news feeds: Stock, The exchange rate, Cars, Women, Entertainment, Finance,

Military, Sports, Science and technology news;
* B/S structure: HTTP web browser/server architecture, all operations are based on cloud computing,

the server software is powerful;

- * Layout template: provide the layout of the various areas and automatic information area, including images, video and subtitles, weather forecast, news area;
- * Programming: support program editing, Support Random, inter-cut and as per demand broadcasting;
- * Terminal management: support equipment grouping function, can be unified control according to the terminal and grouping;
- * Configuration management: according to the grouping or terminal set the configuration of the terminal, such as network connections, time of shutup or shutdown, volume, what time to upgrade, etc;
- * The system state: can record abnormal alarm information, provide the system monitoring information;
- * Playing status: can examine a file within a certain time period in a group or a terminal playing number and detailed information;
- * Safety management, can be set up a role permissions, can give a account set up multiple roles;
- * Terminal software is based on Microsoft winCE operating system 6.0, support for almost all the multimedia video and image format, support 1080p video decoding, video output 480p/720p/1080p/2160p;
- * Terminal can display abundant multimedia elements, including video, music, pictures, scrolling marquee, weather forecasting, RSS news, FLASH, PPT, WORD, EXCEL, etc. ;
- * According to a server-side program, automatically set into a landscape or portrait;
- * Support time-sharing volume, period of time to set the volume;
- * Support time switch machine and the time switch panel, can be set switch machine time, and only switch screen time each day;
- * Support regular upgrade, according to the time period, can download program and system application;
- * Support infrared remote operation;

* Material: tempered glass + aluminium profile + Metal plate;

* Built-in speaker: 8w * 2

Note: before using the machine, please ensure that the local network has covered and work normally.

***** Customization/options**

* **Boot up logo/show customer's logo on screen after turning**

* **Touch panel**

* **Motion sensor**

***** Working principle**

3. Time of making sample

- * Common sample: 1 to 3 working day**
- * Customized sample: 3-12 working days**

4. Lead time

- * If have materials in stock: 5-10 working days**
- * If no materials in stock: 15-25 working days**

5. Price term

- * Prepay 30% payment before production, the 70% balance being paid before shipment after inspection passed.**

6. After sale service

- * 12 months warranty if quality problems caused by the product itself & lifetime maintenance!**
- * RMA policy: The buyer and the seller each bear one-way freight**
