

Product Name: Large Flux RO reverse osmosis water purifier  
Filter: PAC-RO-AC  
Place of Origin: Guangdong, China  
Brand Name: OLANSI, OEM, ODM  
Model Number: OLS-W4/W6  
Voltage (V): 100-240V  
After-sales Service Provided: Free spare parts  
Warranty: 1 Year  
Type: Reverse Osmosis  
Use: Under Sink  
Application: Hotel, Outdoor, Garage, Commercial, Household  
Power Source: Electric  
Purified Water: Direct Drinking  
Rated Water Volume: 6000L  
Rated power <60W  
Water output speed: 1.0 L/min  
Noise<48dB(A)  
Effluent water quality: Pure water  
Waste water ratio: 2 : 1 (good water than wastewater)  
Use environment: 5-45℃  
Installation method : On stage / under the kitchen  
Temperature: Normal temperature, warm water, boiling water, and customized temperature  
Filters' material Composite Filter: Folded PP + Carbon rod + Silicon Phosphorus Crystal  
Filter Lifespan: 3000L  
Effluent water quality: Pure water  
Certification: EMC, CE, CB, CCC, CQC, test report, etc

#### Packaging & Delivery

Packaging Details  
Standard Carton, Neutral packing: 1pc/color box,1pcs/ctn  
Product size: 245x245x380mm  
Box size: 330x325x520mm  
Port: Guangzhou or Shenzhen

#### Advantages

1. 400G-600GPD large amount of water flow
2. Drinking immediately after filtering
3. 1L/min Water output
4. 3 in 1 Composite filter
5. Optional WIFI and TDS

We trust we will be your trustworthy supplier in China if we have a chance to serve you.
