BOM Felt Series

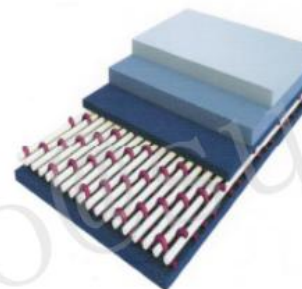

Single layer BOM felt

Application

Paper machine : Cylinder、 Super Forming、 Fourdrinier、 Inclined Wire Machine、 Nip Wire Machine etc for forming section felt、 press felt.

Machine Velocity : $\leq 800\text{m/min}$ Paper : $\geq 8\text{g/m}^2$ kinds of Paper

NIP : $\leq 80\text{kN/m}$

NO.	GSM	Structure style	Application	Felt's trait
1	700-800	Single layer;domestic material	tissue paper	Good filtration
2	700-1100	Single layer;domestic material	Write paper , printing paper , newspaper , technical paper , package paper	Good filtration , light trace long life
3	700-900	Single layer;domestic material	Corrugeting , kraft paper , package paper	Good filtration
4	800-1000	Single layer;domestic material	Kraft paper , white paperboard	Excellent tensile strength , good filtration
5	800-1000	Single layer;domestic material	Kraft paper , white paperboard	Excellent tensile strength , light trace , good filtration
6	800-1000	Single layer;import material	High-grade write paper , printing paper , technical paper , tissue paper	Good filtration , traceless, flar surface,long life performance
7	800-1000	Single layer;import material	High-grade write paper , printing paper , technical paper , tissue paper	Good filtration , traceless, flar surface,long life performance
8	800-1000	Single layer;import material	High-grade package paper , kraft paper , paper board	Excellent tensile strength , good filtration,long life performance

Double layer BOM felt series

Application

Paper machine : Multi-cylinder, Super Forming, Fourdrinier, Superposition Wire, Nip Wire Paper Making Machine ect for different kinds of paper machine press felt and forming felt.

Machine Velocity : $\leq 1000\text{m/min}$ Paper : $\geq 8\text{g/m}^2$ kinds of Paper

NIP : 60-200kN/m

NO.	GSM	Structure style	Application	Felt's trait
1	900-1100	Double layer , domestic material	Corrugating , kraft paper , package paper	Excellent tensile strength , good filtration , good ability adsorb-ability , long life performance dimension stability dimension stability
2	1100-1400	Double layer , domestic material	Write paper , printing paper,newspaper , package paper , kraft paper	Lighten trace , high line press resistance , long life performance
3	1200-1500	Double layer , import material	Write paper , printing paper , newspaper , package paper , kraft paper	Lighten trace , high line press resistance , good filtration , dimension stability,long life performance
4	950-1300	Double layer , import material	Corrugating , kraft paper , package paper	Excellent tensile strength , good filtration , anti-abrasion , long life performance , dimension stability
5	900-1300	Double layer , import material	Tissue paper , Towel paper , Napkin paper	Excellent tensile strength , good filtration , long life performance , dimension stability

Triple layer BOM felt series

Application

Paper machine : Medium/high Velocity paper machine of Multi-cylinder, Fourdrinier, Superposition Wire, Vacuum Composite Press, Large Diameter Roll Press, Shoe Press etc.

Paper Machine Velocity : $\leq 1000\text{m/min}$ Paper : $\geq 40\text{g/m}^2$ newsprint, write paper, high-grade board paper etc.

NIP : $\geq 200\text{kN/m}$

NO.	GSM	Structure style	Application	Felt's trait
1	1450-1550	Triple layer domestic material	Big roll press, high-grade write paper, newsprint, Package paper, corrugating, kraft paper etc	Good filtration, good flexibility, flat surface, long life performance
2	1500-1700	Triple layer domestic material	Big roll press, high-grade coating white board, paperboard, corrugating, kraft paper etc	Good filtration, good flexibility, flat surface, long life performance
3	1450-1550	Triple layer import material	Big roll press, shoe press"high-grade write paper, newsprint, package paper, corrugating, kraft paper etc	High line press, big vacuum, anti wear-out, good flexibility, flat surface, long life performance
4	1500-1700	Triple layer import material	Big roll press, shoe press, high-grade coating white board, paperboard ect	High line press, big vacuum, anti wear-out, good flexibility, flat surface, long life performance
5	1600-1900	Triple layer import material	Big roll press, shoe press, high-grade coating white board, paperboard ect	High line press, big vacuum, anti wear-out, good flexibility, flat surface, long life performance
