

Product parameters

Effective operating range: 10m	Continuous working time: 230 hours
Supported systems: ios/Android/Windows	Charging time: <2 hours
Battery capacity: 210mAh	Button life: >3 million times
Standby time: ≥ 150 days	Standby current: 0.3mA
Modulation method: GFSK	Working voltage: 3.0-4.2V

Note: The above product data are derived from laboratory tests. There may be errors in different environments and different equipment tests.
